HPX – PMC meeting notes

Present:

Hartmut, Mikael, Adrian, Nikunj, Auriane

- Kokkos execution policy is available now
- Resiliency APIs have been modified to expose executor based functionality, should play along well with Kokkos executors
- Nikunj working on using the same APIs for distributed resiliency (replay and replicate)
- Auriane is currently working on Release candidate for HPX V1.5, expected to be available tomorrow
- Release planned for mid/end August
- Mikael has finished setting up Jenkins on Rostam
